Seller Solutions · Buyer Opportunities · Real Estate Recovery

For many real estate professionals, short sales and foreclosures represent the new "traditional" real estate transaction. Knowing how to maneuver the complexities of short sales as well as how to identify the distinct real estate opportunities in foreclosure are not merely good skills to have in today's market—they are critical. This course helps students evaluate all available options for distressed homeowners and identify the components of an effective short-sale package. This course looks at how real estate professionals can counsel buyer-clients in the purchase of foreclosure properties. And as a practical resource, this course shows students how consumers can avoid foreclosure in the future. Gain a competitive edge with this ABR® one-day elective course.

BONUS!!

The one-day Short Sales and Foreclosures courses available from REBAC and CRS are approved electives for the Accredited Buyer's Representative (ABR®) and Certified Residential Specialist (CRS) designations respectively.
